The lacquered painted products of Boreas offer a choice of four different colours with many patterns. It has an elegant appearance with its mat and silky surface. Primer coats applied on wood provide a smooth surface which is homogeneous and suitable for the adhesion of paint. It offers a splendor of the lacquer.

FRAME

42 mm FRAME PANEL FILLED WITH WOODENASE PANEL is offered as standard in our lacquered painted doors. The surfaces are painted in the chosen color. The frame is assembled in place before assembly and 15 mm polyurethane filling material is used in the gap between it and the wall. Depending on the wall depth, different size options can be offered in 10-12-14-16-18-20 cm. sizes. Prices may vary according to frame widths.

LEAFES

The leafes are produced by fir wood door carcass with MDF surfaces on it and coated / painted with selected material. Total leaf thickness is 42 mm. Filler honeycomb is applied to the inner space, MDF thickness varies according to the pattern selected on the leaf surface as 8-10-12 mm.

ARCHITRAVES

Architraves are standard in all models with 8 mm thickness and with 80 mm width MDF. Surfaces painted with the selected material. Arches slides inside of the frame and fixed. Upper corners join together on 90 degrees detail. Horizontal architrave is placed between vertical architraves.

HARDWARE ACCESSORIES

In addition to the basic elements of the door, it comes with a triple set of hinges, locks, seals and screws. The handle set can be purchased optionally.
